Summary

Driven frontend developer with 4 years of experience in React and Next.js, skilled at creating intuitive user interfaces and collaborating with cross-functional teams. I excel at rapid prototyping, writing reusable components, and following best practices to build performant applications. Always eager to learn and stay updated on web development trends, I'm looking to contribute my React skills and passion for delivering top-tier digital products in a fast-paced company.

Technical Experience

Software Engineer   SEPT 2023 — Present

Tarmeez Capital – Remote

- Developing and maintaining high-quality, responsive user interfaces, which facilitates Sharia-compliant investment opportunities.
- Collaborating with backend developers to integrate frontend components with APIs, ensuring seamless functionality.
- Conducting code reviews and providing mentorship to junior developers, fostering a collaborative development environment.
- Tech stack: Next.js, React, SvelteKit, Agile, Jira, Jenkins, Docker, Oracle SQL, Git, TailwindCSS.

Software Engineer   OCT 2023 — AUG 2024

Cube Master – Remote – Part-time

- Assisting in the development and maintenance of multiple projects, focusing on creating user-friendly and applications.
- Contributing to the design and implementation of mobile applications using React Native to ensure a consistent user experience across platforms.
- Helping other developers by reviewing their code and offering guidance to improve code quality and performance.
- Tech stack: Next.js, React, React Native, JavaScript, Jenkins, Git, TailwindCSS, Ci/CD.

Software Engineer   JUN 2022 — SEPT 2023

Cegedim Egypt – Hybrid

- Developing and maintaining Cegedim's leading healthcare solution in France "Mon Logical Medical."
- Collaborating closely with the team and product owners to understand and refine new requirements.
- Actively taking part in (POC) initiatives, proving the advantages of new and enhanced features of React over older ones.
- Tech stack: React, Agile, Java, Spring 2 MVC, JSP, Ext-JS, Spring boot, Jira, Jenkins, Docker, Oracle SQL, Git, Liquibase.
